Cllr Ireton confirmed he had a small grant he can offer for appropriate schemes. The grant money must be spent within 12 months.

Cllr Strickland asked Cllr Ireton about the availability of Sustainability Grants that could be applied for by the Village Projects sub-committee. His response was that these are available but every application has to show that works are ongoing and for the long term. 36/2022 Parish Council Subcommittees

In addition to the formal Committees responsible for Finance and Recreation Fields, the PC proposes to create 2 subcommittees, each responsible to the PC.

By using a subcommittee structure the PC will have greater flexibility to put together meetings and use expertise from within the village on an ad hoc basis. The subcommittees will have terms of reference and will report back to the full council. In line with YLCA guidance note 12 they will not be empowered to make decisions on behalf of the PC. We propose to appoint 2 parish councillors to each committee. We will bring the terms of reference to the next PC meeting.

Planning committee - aim to establish group with agility to look at planning issues promptly and using available expertise. The timetable for planning applications does not synchronise with the PC meeting timetable - this committee will ensure the village is able to respond effectively. Cllr Strickland has agreed to be one of the nominated councillors. We will identify another candidate prior to the July meeting.

Village Projects Committee - a group to ensure the council supports events, groups and issues in our village. Cllr Biles has agreed to be one of the nominated councillors. We will identify another candidate prior to the July meeting.

43/2022 **B4RN**

B4RN is proposing to site a telecoms cabinet (approximate size 1.80m wide x 1.80m high x 0.50m deep on a plinth extending to 1.00m all around) near to former school at the entrance to the village. The cabinet is near to the 'Burton in Lonsdale' sign. Simon Stockton attended the meeting as the village volunteer lead from B4RN.

The PC agreed that this section of the meeting could be opened up for public discussion.

Mr Stockton advised of constraints as follows:

- B4RN will not permit the cabinet to be placed on privately owned land.
- For resilience purposes, the cables entering the cabinet must form a circuit that does not involve laying cables adjacent to one another.
- B4RN will require vehicular access to the proposed site.

Cllr Ireton confirmed B4RN has statutory rights that enable B4RN to locate equipment on public land.

Concern was expressed about the visibility of the cabinet by traffic entering the village as well as the impact on a bench that had previously been donated to the village.

Mr Stockton confirmed B4RN had considered other locations but found them to be unacceptable. He had marked out the proposed position of the cabinet on site.

During discussions, a member of the public, Mr Whitfield suggested additional stone walling in the vicinity of the entrance sign may shield the cabinet but still enable access. Other landscaping solutions were discussed.

Mr Stockton agreed to identify the flexibility within the appointed location of the cabinet. PALS with Trowels (a voluntary organisation within the village) to consider appropriate aesthetic options in consultation with Mr Stockton and with PC members.

It was noted that there may be some funding available via the PC; Cllr Ireton may be able to offer a small grant; some funds may be available via the local B4RN group. There may also be scope to approach the developers of the nearby school site.

Resolved: The PC to consider at next PC meeting.

44/2022 **VAS sign**

The PC purchased a VAS speed monitoring sign several years ago. It has not been used recently.

Resolved: To encourage a group of minimum 3 people to work together to erect and manage the sign at previously agreed locations in the village.

45/2022 **Village Flagpole**

The PC will be raising flags for key dates identified by Cllr Wardle. The list of dates will be added to the Burton website and identified in the Burtonian.

46/2022 **Electricity Supply to Manor Close**

In response to a request by a resident of Manor Close, Cllr Thompson contacted Electricity NorthWest to gain understanding of works scheduled to improve the resilience of the network following several power outages. The response from ENWL has been shared with the resident. Whilst the PC is able to offer support if there are further incidents, it is worth noting that complaints from individual residents are more effective.

The meeting closed at 21:00
